PROFESSIONAL SUMMARY

Highly motivated Bachelor of Information Technology graduate **(qualification conferred with distinction)**, with few awards for outstanding academic performance. Passionate about software engineering and data management, with a solid academic and practical foundation in SQL, relational database design, normalization, ERD modelling, query optimization, indexing, and data integrity. Experience includes developing and integrating databases into full-stack web and mobile applications using MySQL and SQLite as part of academic and personal projects, applying object-oriented programming principles and software design patterns to build efficient, maintainable solutions. Proficient in C#, Java, and Python, with exposure to full-stack web development and native Android application development using Java, as well as working knowledge of MongoDB and database optimization principles. A fast learner with strong analytical, problem-solving, adaptability, and teamwork skills, committed to continuous learning and professional growth. Eager to build on the technical foundation acquired during my studies, learn from experienced software professionals, and contribute to the development of innovative, high-quality technology solutions within a collaborative and dynamic environment**.**

EDUCATION

Bachelor Of Information Technology (CUM LAUDE) | Nelson Mandela University

2023– 2025

- Merit Award (2x) for outstanding academic performance
- Received the Best Second-Year BIT Student Award (2024) within the School of Information Technology.
- Awarded the Academic Excellence Award for achieving an 80% average in first year (2023) at Hector Pieterson First Year Male Residence.

SKILLS

TECHNICAL SKILLS

- Javascript
- MySQL
- PostgreSQL
- Mobile Development
- HTML
- C#
- Java
- React Native
- CSS
- Python
- Git, GitHub
- TypeScript

PROFESSIONAL SKILLS

- Problem Solving
- Strong Communication
- Team player
- Time Management
- Analytical
- Adaptability
- Fast learner of new technologies
